CONSTRUCTION SERVICES FOR TOMORROW'S NEEDS

new-com

New-Com is the consolidated parent company of TAB Contractors, MMC, Acme Electric and Biodiesel of Las Vegas. The ability to implement efficient operation strategies and cost competitive building practices has made New-Com one of the largest self-performing construction entities in the Southwest. By managing a broad based group of specialized contractors, New-Com is able to capture economies of scale for our clients regardless of project size.

SERVICES

As a vital contributor in the growth of the Las Vegas Valley's infrastructure, New-Com has constructed numerous projects within the public and private sectors. Our services include:

- Biodiesel Production and Distribution
- Construction Management at Risk
- Design/Build
- Heavy Civil Construction
- Industrial Electrical
- Jet Fuel Installation
- Mass Excavation
- PCCP Paving
- Specialty Process Facility Construction
- Underground Wet Utilities
- Water/Wastewater Facility Construction

EQUIPMENT AND RESOURCES

We maintain over 1000 pieces of rolling stock in a fleet valued in excess of \$25 million, including:

Articulated Trucks

Asphalt Pavers

Backhoes

Concrete Batch Plants

Concrete Pavers

Cranes

Directional Drills

Excavators

Hydraulic Hammers

Loaders

Motor Graders

Road Miners

Scrapers

Service Vehicles

Trenchers

Biodiesel of Las Vegas specializes in the production and resale of ASTM quality biodiesel harvested from various feedstocks. Our proven batching process allows us to use existing economically viable oils and future cellulosic and algae oils. We are pioneers of alternative fuel production for the transportation and renewable energy industry in the Southwestern United States.

Located on six acres in North Las Vegas near the Interstate 15 and 215 Beltway Interchange is the site of our strategic expansion. We have access to a major interstate, the Union Pacific Railroad, Kinder Morgan, Baker Commodities, Nellis Air Force Base and bulk fuel distributors within a one-mile radius of the site.

SERVICES

By the end of 2004, Biodiesel of Las Vegas emerged as the first commercially viable biodiesel producing enterprise in Nevada. The original pilot plant successfully expanded its production capacity to 4.0 million gallons per year of ASTM quality biodiesel. In the spring of 2007, Biodiesel of Las Vegas began construction on a state-of-the-art biodiesel production facility.

- Biofuel Distribution
- Biofuel Marketing
- Biofuel Storage
- Commercial Biodiesel Production
- Feedstock Storage
- Glycerin Production
- Railway Access

PIONEERS OF ALTERNATIVE FUEL PRODUCTION

SAFETY

A safe working environment is one of the fundamental values of New-Com's company culture. The NCI Safety Department is diligent in providing all necessary training, education, and continued support to all employees. New-Com takes pride in the managerial involvement, implementation and support of the Safety Department. All New-Com superintendents have successfully received their applicable OSHA 10 and 30 Hour Certificates. Safety is a full-time commitment requiring each employee to be responsible for themselves and their fellow workers. We are proud of our safety record and will continue to work towards our goal of zero work-related incidents.

CONSTRUCTION AND BEYOND

New-Com and it's family of companies understand how to achieve longevity within the construction industry. We have proven to prevail in poor economic-states and flourish in booming markets by adopting an outside-of-the-box business philosophy. New-Com is consistently exploring innovation by tactful diversification and expansion strategies. We have expanded into renewable energy and alternative delivery systems for major industrial construction projects throughout the Southwest United States. With over 150 years of combined experience in the construction industry, New-Com plans on continuing our legacy as a staple in construction and beyond.
